SUBJECT INDEX

Abra sp., sorting of food particles by **20**, 137
Acanthaster planci, biochemical investigation of feeding behaviour of **15**, 173; **17**, 69, 87
Acanthaster planci, food preferences **17**, 87
Acanthephyra purpurea, changes in lipid composition during diurnal migration **13**, 55
Acartia clausi, dark inhibition of egg hatching **20**, 43
Acid and alkaline phosphatases and glucose-6-phosphatase in the hepatopancreas of *Scylla serrata* **14**, 1
Adhesion in *Calliactis parasitica* **19**, 177
Alga-invertebrate symbiosis, biology and physiology of **13**, 165
Alkaline and acid phosphatases in marine diatoms **19**, 217
Amino-acid composition of lipid-free residues of marine animals from northeast Atlantic **17**, 261
Amphiprion bicinctus, behaviour of towards other fish **19**, 1
Analysis of importance of spatial and temporal heterogeneity in estimation of phytoplankton production in an enriched basin **18**, 99
Analysis of sampling variability in replicate mid-water trawls of southern California **14**, 261
Analysis of structural variations in a shallow estuarine deposit-feeding community **19**, 275
Analysis of three-dimensional data in marine ecology **11**, 207
Anemone fishes, protection of **20**, 49
Anglesey, U.K., some physical, chemical, and microbiological characteristics of two beaches **15**, 305
Anomura, feeding and masticatory structures of **18**, 277
Arctica islandica, effects of hypoxia and body size on oxygen consump-

tion **19**, 187
Arenicola marina, contamination by ^{137}Cs, influence of salinity and ionic equilibrium on **15**, 159
Ascidiella aspersa, water transport in **11**, 1
Aspects of feeding in thecosomatous pteropod molluscs. **15**, 127
Association of and competition between shrimps and molluscs. . . . **13**, 63
Aurelia aurita, ^{131}I metabolism in relation to strobilation in. **16**, 113
Autecology of *Eugomontia sacculata* **16**, 19
Axenic red algae, growth stimulation by phenolic compounds **15**, 1
Azoreductase activity in *Mercenaria mercenaria* **14**, 225

Bacteria, effects of medium composition on recovery from sea water . **15**, 25
Bairdiella icistia effects of temperature and salinity on yolk utilization **16**, 213
Balanus balanoides, early changes in shell form. **17**, 221
Balanus balanoides, early development of cement apparatus in **12**, 305
Balanus balanoides, effect of food, temperature and light-period on moulting frequency **15**, 275
Balanus balanoides eggs, free amino-acid pool **19**, 59
Balanus balanoides, fine structure and possible function of sensory setae of penis **14**, 89
Balanus balanoides, penis regeneration in **16**, 205
Balanus balanoides, seasonal changes in enzyme activity. **19**, 81
Balanus balanoides, wound-stimulated moulting, calcification responses in **14**, 295
Balanus balanus, biochemical composition of seminal plasma of, with particular respect to free amino acids and proteins. **16**, 47
Balanus balanus eggs, free amino-acid pool **19**, 59
Balanus balanus, seasonal changes in enzyme activity **19**, 81
Balanus eburneus, effect of ecdysterone on cyprids of **15**, 223
Bangia, experimental investigations in The Netherlands **11**, 239
Bankia setacea, energy metabolism in the caecum of **14**, 171
Beaches, some characteristics of, Anglesey, U.K.. . . . . **15**, 305
Behaviour of some amphiurid brittle-stars. **18**, 29
Bembicium nanum, biology of **18**, 153
Benthic ecology of Loch Linnhe and Loch Eil. **20**, 1
Blood carbohydrates in *Panulirus longipes*. **18**, 227
Britain, northeast, kelp fauna of. **13**, 97, 127; **16**, 257
Brittle-stars, behaviour of. **18**, 29

^{137}Caesium fixation by *Arenicola marina*, influence of salinity and ionic equilibrium **15**, 159
Calliactis parasitica, nature of adhesion of tentacles to shells. **19**, 177

Callianassa kraussi, osmotic and ionic regulation in **16**, 301
Callinectes sapidus, significance of diet on growth and development of larvae of **20**, 119
Calorific value of Pacific coast seaweeds and significance to marine invertebrate herbivores **18**, 139
Cancer pagurus, effect of limb loss and regeneration on growth . . . **13**, 45
Caprellids from Florida, comparative morphology of feeding in . . . **15**, 81
Carbohydrates, production of by marine planktonic diatoms . . **15**, 261
^{14}C-labelled salt marsh plants, production of **14**, 251
Carcinus maenus, quantitative and histochemical study of iron in. . . **16**, 123
Cardiac responses of *Pecten maximus* to respiratory stress. **13**, 29
Cardisona guanhumi responses to respiratory stress in relation to blood pigment affinity **11**, 91
Cassiopea, productivity and organic consumption **18**, 55
Cellana radiata, sex phenomenon and reproductive cycle in **12**, 263
Cellana tramoserica, biology of **18**, 153
Cement apparatus, early development of in *Balanus balanoides*. . . . **12**, 305
Cement of a pedunculate cirripede, biochemical composition of . . . **16**, 87
Centrostephanus coronatus, lunar synchronization of reproductive rhythm **17**, 323
Cerastoderma edule, effect of concentration of suspension on filtration rates and pseudofaecal production **17**, 1
Cerianthus lloydi, extracellular digestion in **18**, 255
Cerianthus lloydi, hydrolases in ectoderm of **18**, 243
Cerianthus lloydi, phagocytosis and pinocytosis in ectoderm and endoderm of **16**, 155
Cerianthus membranaceus, hydrolases in ectoderm of **18**, 243
Chaetoceros affinis var. *willei*, alkaline and acid phosphatases **19**, 217
Changes in lipid composition during diurnal migration in *Acanthephyra purpurea* **13**, 55
Chemical composition of phytoplankton populations. **11**, 15
Chlorophyll in fertilized plots in a Massachusetts salt marsh. **14**, 47
Chloroplast pigments and physiological state of phytoplankton . . . **11**, 137
Chondrus crispus, growth and reproduction **17**, 137
Chondrus crispus, growth regulators from **20**, 179
Chthamalus depressus, a histological and scanning electron microscope study of wall plates of **20**, 183
Chthamalus depressus, ecology of **17**, 269
Chthamalus depressus, structure of wall plate **20**, 265
Circadian and circatidal rhythms in *Melanerita atramentosa*. **11**, 247
Circadian rhythm of glycogen content in various brain structures of *Serranus scriba* **15**, 43

Cirripede eggs, biochemistry of **19**, 59
Cirripede embryos, response to salinity changes during development **15**, 197
Clibanarius vittatus, structure of seasonal migrations **18**, 47
Clione limacina feeding and growth. **16**, 131
Clupeid inshore populations of west coast of Scotland **12**, 119
^{58}Cobalt accumulation and retention by *Pleuronectes platessa* **12**, 315
^{58}Cobalt accumulation from sea water by *Raja clavata* **12**, 327
Comparative functional morphology of feeding in three caprellids from Florida. **15**, 81
Comparative studies of the biology of *Nerita atramentosa*, *Bembicium nanum*, and *Cellana tramoserica* in S.E. Australia **18**, 153
Condylactus, productivity and organic consumption **18**, 55
Crab larvae, depth regulation in absence of light. **13**, 73
Crassostrea virginica, comparison of feeding rates and biodeposition **12**, 19
Cryptochiton stelleri, gas-exchange in. **12**, 27

Deoxyribonucleic acid-hydrolysing bacteria, occurrence and distribution in sea water. **14**, 157
Depth regulation of crab larvae in absence of light. **13**, 73
Dicathais, multivariate study of geographic variation in. **11**, 27
Digestive efficiency of *Sagitta hispida*. **17**, 33
Donax faba, polymorphism and selective predation in. **17**, 205
Donax vittatus, effect of temperature and starvation in laboratory populations **13**, 229
Donax vittatus, oxygen consumption in. **11**, 311
Dynamics of phytoplankton blooms **11**, 157

Ecdysterone, effect on cyprids of *Balanus eburneus* **15**, 223
Ecological studies of economic red algae **17**, 137
Ecology of *Chthamalus depressus*. **17**, 269
Effect of light intensity and period on thallus form of *Pleonosporium squarrulosum* **19**, 165
Effects of medium composition on recovery of bacteria from sea water **15**, 25
Effect of salinity and dissolved organic matter on surface change characteristics of some euryhaline phytoplankton **17**, 59
Elminius modestus, ultrastructural study of the mantle in relation to shell formation **20**, 287
Embryonic development of *Pleuronectes platessa*. **18**, 121
Endogenous tidal rhythmicity in *Nymphon gracile* **13**, 83
Energy metabolism in the caecum of *Bankia setacea* **14**, 171
Energy transformation by *Histrio histrio* **12**, 219
Enrichment experiments on phytoplankton **11**, 287

Enzyme activity in cirripedes **19**, 81
Epibionts of *Sargassum natans* **14**, 17
Esterase enzymes of nemertean worms, ... **17**, 95
Estuarine benthic faunal community, spatial dispersion of **15**, 69
Eugomontia sacculata, autecology of **16**, 19
Evaluation of number of planktonic organisms in a bay **12**, 299
Experimental infection of aposymbiotic gorgonian polyps with zooxanthellae **15**, 335
Extracellular digestion in *Cerianthus lloydi* **18**, 255

Favia fragum, importance of light and food on early growth **15**, 299
Favia fragum, settlement behaviour of planulae larvae of **15**, 165
Feeding biology of *Hydrobia ventrosa* **19**, 233, 243
Feeding rates and biodeposition in *Crassostrea virginica* **12**, 19
Filtration rate of zooplankton community during spring bloom in Akkeshi Bay **19**, 145
Fine structure and possible function of sensory setae of penis of *Balanus balanoides* **14**, 89
Firth of Lorne area, phytoplankton populations **11**, 121
Fish grazing on shore algae **11**, 81
Food chain dynamics of oyster, clam, and mussel in an aquaculture food chain **12**, 157
Free amino acids, trimethylamine oxide, and betaine separation and estimation of in tissues and body fluids of marine invertebrates . . . **16**, 29
Fucus serratus community in Strangford Lough, Co. Down, composition and zonation **17**, 111
Fundulus heteroclitus, effect of detritus and ration size on growth of **16**, 1

Gas exchange in *Cryptochiton stelleri* **12**, 27
General biology of *Verruca stroemia* **12**, 167, 279; **14**, 27, 37; **19**, 227
Geographic variation in *Dicathais* **11**, 27
Gigartina, experimental studies on **11**, 71
Goniopsis cruentata responses to respiratory stress in relation to blood pigment affinity **11**, 91
Growth chamber for the production of ^{14}C-labelled salt marsh plants **14**, 251
Growth of *Fundulus heteroclitus*, effect of detritus and ration size . . **16**, 1
Growth of *Laminaria hyperborea* **15**, 185
Growth of phytoplankton, semi-continuous monitoring of **11**, 275
Gulf of Guinea, grazing of fish on shore algae **11**, 81

Halocyprid ostracods, sinking velocities **19**, 105
Hawaiian fringing-reef crustose Corallinaceae, population and com-

munity structure of **11**, 103
Heart activity in *Scrobicularia plana* **19**, 257
Heavy metal tolerance of marine phytoplankton **15**, 145
Hemigrapsus crenulatus, effect of temperature and salinity on **13**, 1
Hemigrapsus edwardsi, effect of temperature and salinity on **13**, 1
Heterotrophic activity in a polluted fjord **19**, 97
Heterotrophic nitrogen fixation in estuarine sediments **18**, 215
Hippoglossoides platessoides, metabolism and growth rate in **11**, 297
Histrio histrio, energy transformation by **12**, 219
Homarus americanus, quantitative and histochemical study of iron in **16**, 123
Hydrobia ventrosa, carbon-budget and dissolved organic material . . . **19**, 243
Hydrobia ventrosa, feeding biology of **19**, 233, 243
Hydrolases in ectoderm of *Cerianthus lloydi* **18**, 243
Hydrolases in ectoderm of *Cerianthus membranaceus* **18**, 243
Hydrolases in ectoderm of *Metridium senile* **18**, 243

Illex illebrosus, effect of starvation on sexual maturation **17**, 157
Intertidal movements and distribution of *Pleuronectes platessa* on a sandy beach **12**, 79
Intertidal zonation of prosobranch gastropods **19**, 197
^{131}Iodine metabolism in relation to strobilation in *Aurelia aurita* . . **16**, 113
Iridaea, experimental studies on **11**, 71
^{59}Iron, accumulation and retention by *Pleuronectes platessa* **12**, 315
^{59}Iron accumulation from sea water by *Raja clavata* **12**, 327
Iron in decapod crustaceans **16**, 123
'Island mass' effect on the phytoplankton and primary production of the Hawaiian Islands **16**, 181

Kelp fauna of northeast Britain **13**, 97, 127; **16**, 257

Laminaria hyperborea, studies on growth of **15**, 185
Laminaria ochroleuca, ecology of in Straits of Messina **15**, 11
Lantern fish, luminescence of, spontaneous activity and responses to mechanical, electrical, and chemical stimulation **15**, 203
Leucine amino-peptidase in *Mytilus edulis* **19**, 33
Leuresthes sardina, ontogenic change in response to a salinity gradient **14**, 211
Light and food, effect on early growth of *Favia fragum* **15**, 299
Light intensity and period, effect on development of thallus form in *Pleonosporium squarrulosum* **13**, 15
Light, nitrogen, and phosphorus limitation of edaphic algae in a Delaware salt marsh **18**, 79
Lipids in marine sponges from Kenya **19**, 9

Littorina littorea, movement on Yorkshire, U.K., coast and influence of infection **17**, 47
Littorina littorea, spawning in **18**, 185
Locomotion and foot form in prosobranch gastropods **14**, 99
Log-normal statistics use of, to describe phytoplankton populations **11**, 121
Longhurst–Hardy plankton recorder, use in investigating the spatial pattern of zooplankton **16**, 93
Luidia clathrata, level, content, and caloric equivalents of lipid, carbohydrate, and protein in body components of. **11**, 263
Luminescence of the lantern fish **15**, 203
Lunar synchronization of reproductive rhythm in *Centrostephanus coronatus* **17**, 323
Lytechinus variegatus, effect of temperature–salinity combinations . **18**, 271

^{54}Manganese, accumulation and retention by *Pleuronectes platessa* . . **12**, 1
^{54}Manganese, accumulation from sea water by *Raja clavata* **12**, 327
Marine animals and tissues, estimation of lipids in **12**, 103
Marine sponges from Kenya, lipids in **19**, 9
Marine sponges, water transport, respiration, and energetics of . . . **14**, 231
Mathematical model for the avoidance of a net by plankton. **14**, 57
Mediterranean phytoplankton, enrichment experiments **11**, 287
Melanerita atramentosa, interactions of circadian and circatidal rhythms **11**, 249
Membranipora membranacea, orientated growth on thallus of *Saccorhiza polyschides* **13**, 91
Mercenaria mercenaria, azoreductase activity in **14**, 225
Metabolism and growth rate in *Hippoglossoides platessoides* **11**, 297
Metapenaeus macleayi, burrowing, feeding, and spatial distribution in Hunter River region, Australia **13**, 189
Metridium senile, hydrolases in ectoderm of **18**, 243
Mid-water trawls, sampling variability of **14**, 261
Model beach system **18**, 197
Mobile escape response of a sessile prey: a sponge–scallop mutualism **17**, 311
Moulting frequency of *Balanus balanoides*, effect of food, temperature, and light period **15**, 275
Multivariate classification of kelp fauna. **13**, 127
Multivariate study of geographic variation in *Dicathais* **11**, 27
Mussels, water loss from **12**, 145
Mytilus edulis, effect of concentration of suspension on filtration rates and pseudo-faecal production **17**, 1
Mytilus edulis from Irish coasts, geographical variation in leucine amino-peptidase **19**, 33

Mytilus edulis, seasonal changes in flesh weight and biochemical composition in Conway Estuary, U.K., ... **18**, 89

Negative phototaxis in crustacean larvae, functional significance . . **16**, 1
Nemertean worms, biochemical studies on esterase enzymes of. . . . **17**, 95
Nerita atramentosa, biology of. **18**, 153
Net avoidance by plankton, a mathematical model. **14**, 57
Ninhydrin-positive substances in osmoregulation in *Panulirus longipes* **19**, 43
North Pacific, oceanic habitat differences in. **12**, 187
Nymphon gracile, endogenous tidal rhythmicity in **13**, 83

Occurrence and distribution of deoxyribonucleic acid-hydrolysing bacteria in sea water **14**, 157
Oceanic habitat differences in the North Pacific **12**, 187
Onisimus affinis, temperature and salinity relationships of **20**, 99
Ontogenic change in response to a salinity gradient in *Leuresthes sardina* **14**, 211
Ontogeny, environment, and shape of *Thais lamellosa*. **13**, 215
Osmotic and ionic regulation in *Callianassa kraussi*. **16**, 301
Osmotic and ionic regulation in *Panulirus longipes* **15**, 97
Oxidative enzymes in *Scylla serrata* **20**, 249
Oxyconformers and oxyregulators: a quantitative index. **17**, 103
Oxygen consumption in *Arctica islandica* **19**, 187
Oxygen consumption in *Donax vittatus* **11**, 311

Palaemontes, distribution of. **18**, 19
Palaemontes, effects of salinity and cyclic temperature on survival of two sympatric species **18**, 19
Panulirus longipes, blood and tissue constituents and water content . . **16**, 167
Panulirus longipes, blood carbohydrates in **18**, 227
Panulirus longipes, gastric fluid constituents **18**, 1
Panulirus longipes, indices of nutritional state **16**, 167; **18**, 1
Panulirus longipes, osmotic and ionic regulation in **15**, 97
Panulirus longipes, rôle of ninhydrin-positive substances in osmoregulation **19**, 43
Paracentrotus lividus, age of and notes on reproductive cycle. **20**, 157
Parasitism of *Vibilia armata*. **14**, 57
Patella vulgata, local habitat-induced variations in population dynamics **17**, 165
Pecten maximus, cardiac responses to respiratory stress **13**, 29
Pedunculate cirripede, biochemical composition of cement of **16**, 87
Penaeus monodon, locomotory rhythms and burrowing habits **18**, 61
Penaeus semisulcatus, locomotory rhythms and burrowing habits. . . **18**, 61

Penis regeneration in *Balanus balanoides* **16**, 205
Phagocytosis and pinocytosis in ectoderm and endoderm of *Cerianthus lloydi* . . . . . **16**, 155.
Phenolic compounds, stimulating growth of axenic red algae **15**, 1
Phestilla sibogae, metamorphosis of studied by light and electron microscope **16**, 227
Phoronis psammophila, variation in number and distribution of longitudinal muscles in **17**, 23
Photosynthesis–light relationship in phytogenetically different marine micro-algae **13**, 181
Photosynthesis : respiration ratio of unicellular marine algae **18**, 111
Phytoplankton as a stimulus for spawning in three marine invertebrates **25**, 199
Phytoplankton blooms, dynamics of **11**, 157
Phytoplankton ecology of Trondheimsfjord **11**, 15, 137, 157
Phytoplankton, heavy metal tolerance of **15**, 145
Phytoplankton in Mediterranean, enrichment experiments **11**, 287
Phytoplankton, nutrient competition and division synchrony in . . . **14**, 201
Phytoplankton, physiological state and chloroplast pigments of . . . **11**, 137
Phytoplankton pigments in Porto Nova waters (India) **14**, 275, 285
Phytoplankton populations, chemical composition of **11**, 15
Phytoplankton populations in Firth of Lorne area **11**, 121
Phytoplankton, semi-continuous monitoring of growth of **11**, 275
Phytoplankton, tolerance to zinc in coastal sea water **15**, 145
Pileolaria (*Pileolaria*) *granulata*, structure of operculum **20**, 215
Plankton, biochemical and mineral composition of **17**, 297
Planktonic copepods, respiration and excretion in summer upwelling off coast of Morocco **15**, 231
Planktonic diatoms, carbohydrate production of **15**, 261
Planktonic organisms in a bay, evaluation of number of **12**, 299
Planktonic organisms, sequential approach to the counting of **15**, 49
Pleonosporium squarrulosum, cell enlargement **19**, 165
Pleonosporium squarrulosum, effect of light intensity and period on development of thallus form **13**, 15
Pleonosporium squarrulosum, effect of light intensity and period on thallus form **19**, 165
Pleuronectes platessa, accumulation and retention of ^{59}Fe and ^{58}Co . **12**, 315
Pleuronectes platessa, accumulation and retention of ^{54}Zn and ^{65}Mn . **12**, 1
Pleuronectes platessa, effect of temperature on embryonic development **18**, 121
Pleuronectes platessa intertidal movements and distribution on a sandy beach **12**, 79
Polymorphism and selective predation in *Donax faba* **17**, 205
Population and community structure of Hawaiian fringing-reef crus-

tose Corallinaceae **11**, 103
Porto Nova waters (India) phytoplankton pigments in **14**, 275, 285
Principal component analysis of counts of zooplankton **14**, 217
Productivity and organic consumption in *Cassiopea* **18**, 55
Productivity and organic consumption in *Condylactus* **18**, 55
Prosobranch gastropods, adaptive design of locomotion and foot form **14**, 99
Pseudaega punctata, rhythmic swimming of **11**, 229

Qualitative and quantitative ordinations and utility of a multivariate approach **16**, 257

Radiographic studies of reef coral exoskeletons **14**, 179
Raja clavata, accumulation from sea water of ^{65}Zn, ^{54}Mn, ^{58}Co and ^{59}Fe **12**, 327
Rates and patterns of coral growth **14**, 179
Red algae, ecological studies of **17**, 137
Reproduction in *Spirorbis* (*Spirorbella*) *marioni* **15**, 285
Reproductive cycles in *Strongylocentrotus purpuratus* in Oregon . **12**, 45, 65
Respiration and excretion of planktonic copepods in summer upwelling off the coast of Morocco **15**, 231
Respiratory stress and blood pigment affinity in *Goniopsis cruentata* and *Cardisona guanhumi* **11**, 91
Response of cirripede embryos to salinity changes during development of **15**, 197

Saccorhiza polyschides, orientated growth of *Membranipora membranacea* on thallus of **13**, 91
Sagitta hispida, digestive efficiency of **17**, 33
Sagitta hispida, visual observations of process of digestion and production of faecal pellets **17**, 39
Salt marsh, concentration and distribution of chlorophyll in fertilized plots of **14**, 47
Salt marsh, Delaware, light, nitrogen and phosphorus limitation of edaphic algae **18**, 79
Sargassum natans, epibionts of **14**, 17
Scotland, clupeid populations of west coast **12**, 119
Scrobicularia plana, temporal variation in heart activity **19**, 257
Scylla serrata, histochemical localization of acid and alkaline phosphatases and glucose-6-phosphatase in the hepatopancreas of . . . **14**, 1
Scylla serrata, histochemical localization of oxidative enzymes in hepatopancreas of **20**, 249
Serranus scriba, circadian rhythm of glycogen content in various brain

structures of **15**, 43
Settlement behaviour of planulae larvae of *Favia fragum* **15**, 165
Sea urchin eggs, effect of temperature on **18**, 239
Selector systems in recording physiological and behavioural activity in sedentary aquatic animals. **15**, 35
Seminal plasma of *Balanus balanus*, biochemical composition of . . . **16**, 47
Sequential approach to the counting of planktonic organisms **15**, 49
Silicate, effect on growth of *Thalassiosira nordenskioeldii* **18**, 173
Sinking velocities of halocyprid ostracods **19**, 105
Siphonophores, distribution in transect across North Atlantic **20**, 77
Skeletonema costatum, alkaline and acid phosphatases **19**, 217
Spartina alterniflora, application of a growth chamber to **14**, 251
Spatial dispersion of an estuarine benthic faunal community. **15**, 69
Spatial dispersion of organisms simulated on a computer **17**, 239
Spatial pattern of zooplankton using a Longhurst–Hardy plankton recorder **16**, 91
Spirorbis pussilloides, opercular moult in **19**, 117
Spirorbis (*Spirorbella*) *marioni*, reproduction in. **15**, 288
Spirorbis spirorbis, opercular moult in **19**, 117
Sponge–scallop mutualism **17**, 311
Starvation, effect on sexual maturation in *Illex illecebrosus* **17**, 157
Statistical study of zooplankton dispersion **12**, 229
Sterols, utilization of from sea water by marine invertebrates **13**, 207
Straits of Messina, ecology of *Laminaria ochroleuca* in **15**, 11
Strongylocentrotus purpuratus, reproductive cycles in Oregon populations. **12**, 45, 65
Styela clava, water transport in **11**, 1
Subtidal red algae, physiological studies of **20**, 237
Sulphophosphovanillin method for estimation of lipids in marine animals and tissues. **12**, 103
Surface nutrients, chlorophyll *a* and phaeopigment in Scottish sea lochs **20**, 63
Swimming behaviour of *Pseudaega punctata*. **11**, 229

Tellina tenuis, experiments in enriched sea water **11**, 189
Temperature and salinity, effects on *Hemigrapsus edwardsi* and *H. crenulatus* **13**, 1
Temperature and salinity effect on yolk utilization in *Bairdiella icistia* **16**, 213
Temperature and salinity relationship of *Onisimus affinis* **20**, 99
Temperature and starvation effects on laboratory population of *Donax vittatus*. **13**, 229
Thais lamellosa, ontogeny, environment, and shape. **13**, 215
Thalassiosira nordenskioeldii, growth at low silicate concentrations . . **18**, 173

Thecosomatous pteropod molluscs, aspects of feeding in **15**, 127
Three-dimensional data, analysis of in marine ecology **11**, 207
Trondheimsfjord, phytoplankton ecology of **11**, 15, 137, 157

Utilization by natural heterotrophic microflora of organic material in sea water **19**, 9
Utilization of sterols from sea water by marine invertebrates **13**, 207

Vibilia armata, parasitism of **14**, 57
Venerupis pullastra, effect of concentration of suspensions on filtration rates and pseudofaecal production **17**, 1
Verruca stroemia, effect of food, temperature and light on breeding and moulting cycles **19**, 227
Verruca stroemia, general biology of **12**, 167, 279; **14**, 27, **37**; **19**, 227

Water loss from aerially exposed mussels **12**, 145
Water transport in *Ascidiella aspersa* **11**, 1
Water transport in *Styela clava* **11**, 1
Water transport, respiration, and energetics of three tropical marine sponges **14**, 231
Wound-stimulated moulting and calcification responses in *Balanus balanoides* **14**, 295

^{65}Zinc, accumulation and retention by *Pleuronectes platessa* **12**, 1
^{65}Zinc, accumulation from sea water by *Raja clavata* **12**, 327
Zinc tolerance of phytoplankton to, in coastal sea water **15**, 145
Zooplankton dispersion, statistical study of **12**, 229
